

ZEBRA-Z

(Gibberellic Acid 0.001% L)

Product Overview

ZEBRA-Z improves the physiological efficiency of crops by activating plant hormonal and enzymatic functions. Gibberellic Acid is a natural plant hormone that promotes faster growth, better flowering and higher yield.

Mode of Action

- Stimulates cell elongation and cell division
- Enhances stem growth and leaf expansion
- Improves overall plant vigor and crop establishment
- Enhances photosynthetic efficiency
- Promotes better flowering and fruit setting

Key Benefits

- Promotes uniform and vigorous growth
- Improves plant height and tillering
- Enhances flowering and fruit set
- Helps in early crop establishment
- Improves overall yield and crop quality

Recommended Crops

Paddy (Rice), Wheat, Maize, Sugarcane, Vegetables, Fruits and other field crops

Dosage

Crop	Time of Spray	Dosage/Ha (ml)
Sugarcane	First spray: 40–45 DAP Second spray: 75–80 DAP	180
Paddy	Jassids, Aphids, Thrips	180
Cabbage / Cauliflower	First spray: 45 DAS Second spray: 65 DAS	180
Brinjal / Okra	First spray: 34 DAP Second spray: 70 DAP Third spray: 105 DAP	180

Pack Sizes:

Available in 250 ml, 500 ml & 1 Liter
